

The 7th Annual Conference on Children's Health and the Environment

Friday, September 11, 2009

Join us for a day of engaging discussions on children's environmental health at the **John's Hopkins University Mount Washington Conference Center, Baltimore, MD.**

We are excited to be back in Baltimore for a daylong conference that will explore how current children's environmental health issues are directing policy changes in the field. Plenary sessions will highlight the National Children's Study, the built environment, and policy changes in regards to healthy homes programs.

Participants will have the opportunity to engage in interactive discussions with environmental health experts in hour long sessions on the following topics.

- Reproductive Health Outcomes
- Climate Change
- Clinical Pediatric Environmental Health Cases
- Respiratory Disease Pediatric Environmental Health

Continuing education credits will be available to the target audience of health care providers, public health professionals, health education professionals, allied health professionals, and the interested public.

The conference is cosponsored by:

The Mid-Atlantic Center for Children's Health and the Environment (MACCHE) of The George Washington University, Agency for Toxic Substances and Disease Registry RIII (ATSDR), Children's National Medical Center (CNMC), John's Hopkins University School of Public Health, The George Washington University (GW), Centers for Disease Control and Prevention (CDC), Environmental Protection Agency RIII (EPA).
